

Our Goal Is Simple

Together, we will make Dublin the most philanthropic community in the country.

A NOTE FROM US

The Dublin Community Foundation supports local non-profit organizations by raising, investing, and dispersing funds for the enrichment of the Dublin community.

Our all-volunteer board shares a common goal of connecting community generosity with community needs.

Collectively, the trustees' diverse skill set, depth of experience and commitment to community combine to create a leadership organization that is dedicated, strategic and visionary.

Our Impact in the community

“Thanks to community supporters like the Dublin Community Foundation, the Columbus Metropolitan Library successfully opened the Dublin Branch. Together, we are building a strong foundation for childhood literacy, providing a safe place for teens to build skills and confidence, and helping adult learners find their paths to success.”

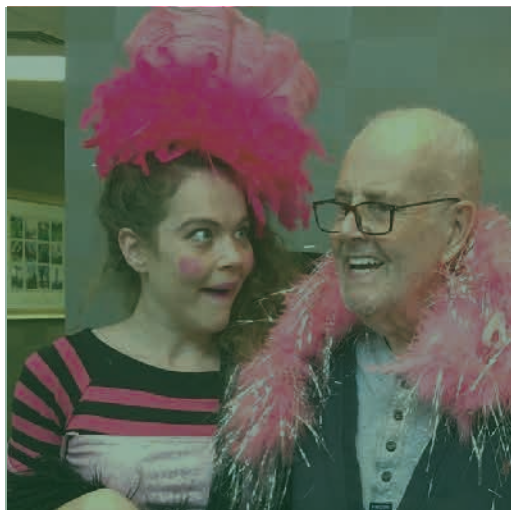

DUBLIN LIBRARY

NICK ROZANSKI
MEMORIAL FOUNDATION

“The Nick Rozanski Memorial Foundation has appreciated and benefitted from our relationship with the Dublin Community Foundation in many ways through the years. We feel very fortunate to have this partnership and we are looking forward to continuing to work with the Dublin Community Foundation.”

GOOD MEDICINE PRODUCTIONS

“In the last year, since partnering with the Dublin Community Foundation, our Good Medicine Senior Living Program was able to grow from serving one senior living facility in Dublin to three. Our Senior Living program brings in professional comedic performers bedside and uses physical comedy, improvisation, music and more to empower these seniors in places where they are often left powerless.”
